

Configuración para Enrutamiento VLAN_SwitchCapa3:

Para switch capa 2 Edificio A:

```
en
conf t
do terminal history size 30
hostname SW_EdificioA

vlan 10
name EdificioA
exit
vlan 20
name EdificioB
exit
vlan 30
name EdificioC
exit
vlan 40
name EdificioD
exit
vlan 100
name Profesores
exit

int range f0/1-2
switchport mode access
switchport access vlan 10
exit
interface f0/20
switchport mode access
switchport access vlan 100
exit
end

conf t
int f0/24

switchport mode trunk

end

wr

show interfaces trunk
```

Para switch capa 2 Edificio B:

```
en
conf t
do terminal history size 30
hostname SW_EdificioB

vlan 10
name EdificioA
exit
vlan 20
name EdificioB
exit
vlan 30
name EdificioC
exit
vlan 40
name EdificioD
exit
vlan 100
name Profesores
exit

int range f0/1-2
  switchport mode access
  switchport access vlan 20
  exit
interface f0/20
  switchport mode access
  switchport access vlan 100
  exit
end

conf t
int f0/24

switchport mode trunk

end

wr

show interfaces trunk
```

Para switch capa 2 Edificio C:

```
en
conf t
do terminal history size 30
hostname SW_EdificioC

vlan 10
name EdificioA
exit
vlan 20
name EdificioB
exit
vlan 30
name EdificioC
exit
vlan 40
name EdificioD
exit
vlan 100
name Profesores
exit

int range f0/1-2
  switchport mode access
  switchport access vlan 30
  exit
interface f0/20
  switchport mode access
  switchport access vlan 100
  exit
end

conf t
int f0/24

switchport mode trunk

end

wr

show interfaces trunk
```

Para switch capa 2 Edificio D:

```
en
conf t
do terminal history size 30
hostname SW_EdificioD

vlan 10
name EdificioA
exit
vlan 20
name EdificioB
exit
vlan 30
name EdificioC
exit
vlan 40
name EdificioD
exit
vlan 100
name Profesores
exit

int range f0/1-2
  switchport mode access
  switchport access vlan 40
  exit
interface f0/20
  switchport mode access
  switchport access vlan 100
exit
end

conf t
int f0/24

switchport mode trunk

end

wr

show interfaces trunk
```

Para switch capa 3:

```
en
conf t
do terminal history size 30
hostname SW_Capa3
ip routing

interface vlan 10

no shutdown

ip add 192.168.0.1 255.255.252.0

interface vlan 20

no shutdown

ip add 192.168.4.1 255.255.252.0

interface vlan 30

no shutdown

ip add 192.168.8.1 255.255.252.0

interface vlan 40

no shutdown

ip add 192.168.12.1 255.255.252.0

interface vlan 100

no shutdown

ip add 192.168.16.1 255.255.255.128

int range f0/1-4

switchport mode trunk

switchport trunk encapsulation dot1q

end

wr
```

```
show interfaces trunk
```
